SUMMARY

Computer Science undergraduate with 3+ years of experience in full-stack development, system design, and secure deployments. Skilled in a wide range of technologies and passionate about problem-solving. Built and deployed 5+ production-grade applications using MERN, .NET, and Next.js

EDUCATION

University of Engineering and Technology, Lahore
Bachelor of Science in Computer Science

Lahore, Pakistan
Minors: Computer Networking, Software Engineering

EXPERIENCE

MERN STACK Developer at Webevis Technologies Lahore (on-site)

June to present

- Full Stack development, FinTech (focused)
- Next js, React js, Node js, Express js, MongoDB, Aws, Tailwind, API, Rest, RESTful API and more...
- Team collaboration and coordination

Walmart USA (Virtual)

Sep 2024

- Advanced Software Engineering Intern — Forage
- Designed heap data structures in Java for shipping systems
- Built UML and ER diagrams for processors and databases

J.P. Morgan (Virtual)

Aug 2024

- Software Engineering Intern — Forage
- Fixed broken repo files to enable web output, Used Perspective to visualize real-time trading data

SKILLS

Languages: C++, C#, Python, Bash, Java, Assembly, Dart, JavaScript, TypeScript

Frameworks: React.js, AngularJS, Flutter, React Native, .NET, Next.js

Databases: SQL, NoSQL

Operating Systems: Windows, Ubuntu, Kali, ParrotOS, Deepin

Tools/Concepts: AI, Data Science, OS, MERN Stack, Appwrite, Sentry, PowerBI, UML, Reverse Engineering

PROJECTS

Zero Trust AI Car Price Prediction Application

2025

Zero trust architecture for secure AI-driven car price prediction using machine learning. MFA, encryption, and real-time monitoring. Protection against adversarial attacks.

Dos Shell with Notepad & Mini OS

2023 & 2024

Dos shell supporting all native functionalities of Dos shell with Notepad in C++. Mini operating system developed in C and Python with basic functionalities.

Weather Analysis System (MERN, PowerBI)

2023

Weather dashboard using ETL processes, PowerBI visualization, and DBMS (SQL)

University Management System (.NET, C#)

2023

Comprehensive academic portal for student, exam, and course management

CERTIFICATIONS

Walmart USA - [Advanced Software Engineering](#) — J.P. Morgan - [Software Engineering](#)
PF and OOP Teacher Assistant at UET Lahore

EXTRACURRICULARS

Technical Lead — GDGoC UET Lahore — Executive Member — Microsoft Learn Student Ambassadors
